INTERVIEWS	
Inmate/Resident/Detainee Interviews	
Random Inmate/Resident/Detainee Interviews	
34. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	22
35. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	☒ Age ☒ Race ☒ Ethnicity (e.g., Hispanic, Non-Hispanic) ☒ Length of time in the facility ☒ Housing assignment ☐ Gender ☐ Other ☐ None
36. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Random inmates were selected from all housing areas, consisting of various ages, races, ethnicities, abilities, length of stay, etc. to ensure a diverse representation of the facility.

37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	☒ Yes ☐ No
38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No text provided.
Targeted Inmate/Resident/Detainee Interviews	
39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	24
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	2
41. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	3

42. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:	1
43. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:	3
44. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:	3
45. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	3
46. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	5
47. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:	2
48. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:	2

49. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:	0
49. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	☒ Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. ☐ The inmates/residents/detainees in this targeted category declined to be interviewed.
49. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	Review of documentation, interview with staff, inmates and review of policy procedure determined there were no inmates within this category.
50. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):	No text provided.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

64. Did you have access to all areas of the facility?	☒ Yes ☐ No
Was the site review an active, inquiring process that included the following:	
65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	☒ Yes ☐ No
66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	☒ Yes ☐ No
67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	☒ Yes ☐ No
68. Informal conversations with staff during the site review (encouraged, not required)?	☒ Yes ☐ No
69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	☒ Yes ☐ No

71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

Standards	
Auditor Overall Determination Definitions	
- Exceeds Standard (Substantially exceeds requirement of standard) - Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period) - Does Not Meet Standard (requires corrective actions)	
Auditor Discussion Instructions	
Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.	

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Following documentation review, staff and inmate interview, and review of the agency and facility practice, it was determined that the facility has a comprehensive policy outlining zero tolerance of sexual abuse and/or harassment. The facility policy is structured to address preventing, detecting, and responding to any and all forms of sexual abuse. Specific staff have been designated by both the agency and the facility to oversee all efforts of PREA compliance. Staff are knowledgeable of their duties and are found to have appropriate authority and time to oversee this important program. Additionally, during interview, it was evident that all staff are aware of the parties overseeing the program and would feel comfortable approaching these staff members to address, clarify, or review any questions regarding the agency and facility programs supporting sexual abuse/harassment.

115.12	Contracting with other entities for the confinement of inmates
---------------	---

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All housing of inmates is conducted under the agency policy regarding sexual abuse and/or harassment. Internal agency audits are conducted on a rotating schedule to ensure all housing facilities are maintaining compliance with all contracted requirements, including PREA.

115.13	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility utilizes a comprehensive, established, staffing plan that is prepared based on facility security needs. The location of each post is reviewed with consideration of other posts, blind spots, camera placement, and inmate access. Annually, the facility conducts a review of the staffing plan to ensure all considerations are made and to determine warranted changes. Consideration is given for changes in areas of any previous incident and multiple staff members are involved in this review. In addition to posts that are stationary, staff make roving rounds within the housing units and inmate access areas. Roving rounds are documented in each housing area. When the facility has the opportunity to add cameras, the location of each is considered in relation to previous incidents, staff post areas, and blind spots.

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility does not house youthful offenders.

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Verified by interview, facility tour, and through policy review, it was evidenced that the facility refrains from conducting cross-gender strip searches and body cavity searches. Although it had not occurred during the review period, staff were

	knowledgeable regarding the documenting of cross-gender strip searches in the event that they occur. The facility has taken proactive steps to provide inmates the ability to shower, perform bodily function and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia. Dividers are provided in the restroom areas obscuring the view of male resident toileting from the view of female staff members. During the facility tour, announcements were made to the male inmates regarding the incoming female visitors, and they were provided time to cover or dress appropriately. It was evident that this is common practice from the reaction of inmates and staff during the tour. It was additionally verified through inmate interviews that announcements of opposite-gender staff entering areas in which an inmate may be disrobed are common practice. Staff were aware of the prohibition of physically examining transgender staff for the sole purpose of determining sex. Staff were able to verbalize the pat search method to be used when searching opposite gender or transgender inmates.

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Agency policy addresses all requirements within the standard regarding the PREA provisions for inmates with disabilities and who are limited English proficient. Rayburn provides all inmates an equal opportunity to the benefits of the facility's effort to protect inmates from sexual abuse/assault. The facility maintains provisions for a contracted interpreter for non-English speaking inmates. Additionally, through the agency, the facility has access to the Lingualinx Telephone system providing live interpreters for various languages. Although the facility rarely receives inmates who are non-English speaking, staff were aware of the steps to be taken to access available resources to ensure appropriate communication. In the event an inmate may have a cognitive delay that could limit their ability to read and/or understand the provisions of the sexual safety program, staff provide direct support and assistance. Staff were aware of specific inmates who may have a cognitive disorder that may affect understanding and verbalized the steps taken to ensure all are aware of the resources available, and how to gain assistance any time needed. 	Upon review, it was found that immediately upon arriving at Rayburn, inmates are screened for their risk of being sexually abused or abusive using a prepared screening tool. The screening tool includes all provisions of standard 115.41. Staff were educated on the information contained within the screening tool and were able to explain the screening form thoroughly. As verified through interview, inmates were familiar with the questions in the screening and it was evident that each inmate receives a screening and information is used to appropriately provide services, appropriate housing, programs, and ensure the safety and security of the inmate. Reassessments are conducted frequently by staff upon the required instances and also if staff feel that there may be a concern with the inmate from being familiar with their normal routines and actions. It was noted that inmates were informed that they would not be disciplined for not answering questions. The information contained within the screening form is maintained securely and only disseminated to staff that has a specific role in the inmate's case and custody and is protected from the access of other inmates. 115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	As each inmate is immediately screened upon arriving at the Rayburn facility. The staff utilize the information gathered to provide for appropriate housing, programming, work, and placement. A color-coded system is utilized to designate the risk level of each inmate by assigning the designation of a point to each indicator on the screening form. This color-coded system provides a visual indicator for staff of

	precautions to be taken by staff when organizing housing, work, education, programs, and recreation assignments. The information obtained by the screening process assists in identifying inmates with risks of being a potential victim or predator of sexual abuse and/or assault/harassment. Through interviews with staff and review of documentation, it was evident that the information obtained in the screening process is utilized in conjunction with information obtained from historical records, and observations by staff members to make determinations about the inmate as an individual. The screening tool provides for areas in which additional information can be added if provided by the inmate. Although the color-coded ranking system is utilized, each determination is made on a case by case basis. All inmates received at Rayburn are designated by the Louisiana Department of Corrections. The agency makes individualized determinations regarding the type of facility in which the inmate is placed. Transgender inmates are reviewed at least twice per year by staff to assess their safety, their own views of safety, the option to shower separately, their view of housing safety, and other needs. These reviews are documented and maintained for review or reference as needed. Housing assignments are made on a case-by-case basis and there are no designated locations in which a specific group of inmates is housed outside of programming specifics.
